during the late campaign. We quote:

"The election of so distinguished a Confederate officer by the Republican party would not only show what we feel—that the time has come when the memories of the war should be forgotten—but when the development of our resources, the education of the young, without distinction of race or color, honest methods in politics, and a strict observation of the public faith will be the object and aim of the people of all sections, North and South."

This result was obtained by throwing out the vote of Tunnel precinct, which, if ten Democrats and only one Republican.

It may be taken for granted that the bogus House thus constituted will exclude the Democratic members from Silver Bow county and seat the Republican members. If they seat all the Republican claimants the Republicans will have only six majority, whereas if the Democratic claimants are all seated the Democrats will have a larger majority than the one claimed by the Republicans. In other words, if the Democrats will stand up for their rights they will either get them or compet the President of the United States to come to the assistance of the swindling Republicans. Supposing that the House of Delectors consists of 100, manufact and that 53. gates consists of 100 members and that 53 of these are Republicans and 47 of them Democrats according to the Re-publican count, it is plain that the 47 Democrats acknowledged by the Republicans to be elected shall unite with the ten Democrats holding certificates from the Clerk of Silver Bow county they will have 57 members as against 53 Republicans. But as 51 mem pers will constitute a quorum, there will be two rival houses, each having a quo-rum. What will result? Why of course the Republican Senate will recognize the Republican House and thus afford President Harrison an excuse for recognizing the same House as having been regularly elected and organized.
